Dear Parent/Carer,

Maths Homework Changes

Following research about the most effective programmes for maths homework, we have taken the decision to change our subscription from Mathletics to My Maths to further support the children's maths learning at home.

My Maths

My Maths is a whole-school interactive resource for use at home, and in the classroom, that is easy to use alongside other maths resources to consolidate learning.

The children will receive online homework assignments where pupils can see the homework task they have been set and the date when it is due. These will be set weekly by your child's class teacher and will consolidate the learning in the classroom to increase fluency and confidence with topics. There are also games which the children can complete. These will help to motivate pupils to develop their understanding of their maths skills whilst enjoying themselves.

My Maths will work as a link between school and home for homework, enabling parents/carers to support their child's progress. The lessons are interactive and provide step-by-step explanations to break down the lesson content into bite-sized pieces. This will help children to recap a concept and also help you, as parents/carers, to understand the method taught.

My Maths achievements will be celebrated in our Friday celebration worships.

The login details will be coming home in paper form with your child.

Reception

For reception children, a maths home learning sheet will be uploaded onto the class page weekly. This will reflect the learning in the class for that week. There may also be videos uploaded to help you to support your child with their maths learning.

Please do not hesitate to ask if you have any questions.

Thank you for your continued support,

Miss Hickson

Year 6 Class Teacher / Maths Lead

Deputy Principal of School
